

OTHER SYMPTOMS TO LOOK OUT FOR

Below are other symptoms you may experience when taking Cotellic®/Zelboraf®. We are very concerned about symptoms we have marked with a check mark. Please call the office if you develop any of these symptoms. Call your oncologist's office immediately if you develop any of the red-flag symptoms. If they aren't available immediately, go to the Emergency Room.

✓	Symptoms	Red flags (Signs that something serious is going on that needs immediate attention)
	Bowel movement changes or constipation (infrequent bowel movements)	If your stools are black or red plus you have pain and fever
	Bruising (black and blue marks)	—
	Chills (shaking) or feeling cold when you don't have a fever	—
	Diarrhea (loose or frequent stools)	Severe pain in the stomach; stools that are bloody or that look like tar
	Dizziness (lightheadedness)	If you faint
	Fatigue (feeling weak or tired)	If you faint
	Headaches	If you have a very painful headache (the "worst headache of your life"), head pain that doesn't go away after a few hours, or head pain with fever, neck pain or stiffness, and/or rash
	Muscle aches, pains, spasms, or weakness	If these symptoms occur along with dark, reddish urine
	Nausea (upset stomach)	If you have any uncontrolled nausea that is keeping you from eating and/or drinking
	Reactions to the sun (severe sunburn; red, painful, dry itchy skin that is hot to the touch; sun rash; skin irritation; bumps; thickened, dry, wrinkled skin)	If you have redness all over your body, blisters on your skin or in your mouth, and/or your skin peels
	Shortness of breath (trouble breathing)	<ul style="list-style-type: none"> • If you have any trouble breathing at rest • If you have shortness of breath and chest pain and/or fainting
	Skin inflammation (swelling) in areas treated with radiation	—
	Stomach pain	If you have sudden severe pain or tenderness in the stomach, blood in the stool, you're vomiting blood, and/or your skin or eyes are turning yellow
	Swelling in your arms or legs	If you have a warm, tender spot on your leg that doesn't get cooler when you put ice on it, and/or if the spot is itchy or tingles, and/or the pain gets worse for no reason
	Thirst, more than usual	If you have great thirst along with feeling very tired, a lack of sweating on a hot day, weakness, dizziness, nausea
